

Months

In **January** I enjoy the snow,

In **February** cold winds blow,

In **March** I pick flowers for my mum,

In **April** rainy days come.

May, June and then **July,**

Summer's here, cold days good-bye.

In **August** sun shines every day,

I lick icecream and enjoy the holiday.

In **September** the apples are ripe and round,

In **October** they fall on the ground.

I play /learn/ in my room in wet **November**,

I find lots of presents under the Christmas tree in **December**.
